

FEDERAL REPUBLIC OF NIGERIA

Senator Jimoh Ibrahim, Ph.D (Cantab), OFR, CFR
SENATOR REPRESENTING ONDO SOUTH SENATORIAL DISTRICT

Senator Jimoh Ibrahim, CFR

Baba, the most distinguished Senator of the Federal Republic of Nigeria (As He then was). There is nothing more to say beyond your good deed of simplicity to human kindness and solution provider to the everyday socialization around us, for some still think that you are still very much around! Yes, no one will forget your rooting of the solution to human problems from the grassroots beyond the human comprehension of providing absolute time for all; you listen and position yourself to the individual challenges as if it was your common problem before you distil incredible solutions. Baba, your conduct towards human concern is excellent.

In the Senate, you took your time to debates and became restless in motions that concerned grassroots; in such common problems, your contributions to national issues are of historical value; indeed, you became the senator of the people! One that we cannot let go of in contemporary comparison. What is familiar about you is your respect for the leviathan and hegemonic institutional arrangement of governance, which is now a reference point to political science and politics students. We as humans are in pain of not sufficiently documenting you before you left for glory, but your footprint is certainly indelible for man's good.

Rest in peace, sir.
